EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 12: "laterally" has been deleted.

Claim 1, line 17: "laterally" has been changed to --lateral--.

2. The amendments to the claims have been entered for the purpose of correcting minor typographical errors.

3. The following is an examiner's statement of reasons for allowance: Independent claims 1 and 5 require specifically spaced apart openings in combination with further elements of a sight mount. Independent claim 17 requires a means for swingably detachably mounting a sight mount on the riser of a bow. Independent claims 24 and 30 an arrow rest in combination with specific mounting elements of a sight mount. The combinations *as a whole* as set forth in these independent claims are neither disclosed nor suggested by the art of record. The Fannelli et al. reference appears to be the most similar to the claimed device. However, there is no suggestion or motivation to modify the Fannelli et al. reference in the manner as claimed. The Fannelli et al. reference

actually appears to teach away from the claimed features, since such mounting features are not necessary for the Fannelli et al. device. Therefore, the claims as set forth are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
